Presenting
a new dining collection from

Carlton-Kirwood

GARDNER, MASSACHUSETTS
A SUBSIDIARY OF NICHOLS & STONE CO.

Distinguished Early American designs never go out of style

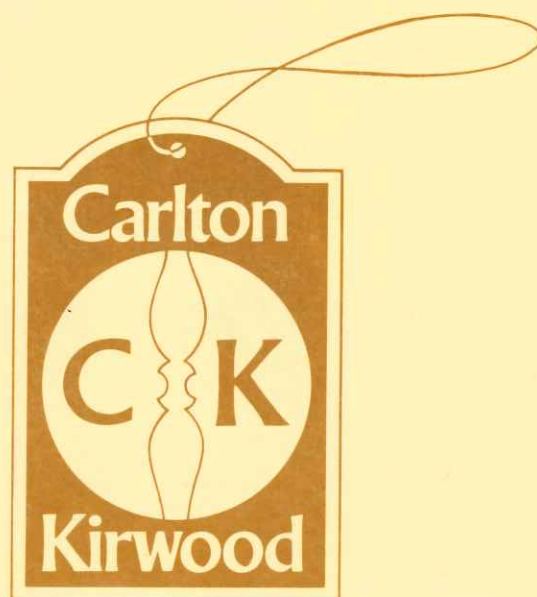

There are fads in furniture as in everything else, but ever since our Colonial forefathers developed these simple, uncluttered, functional styles for use in their own homes, whether cottage or mansion, they have been favorites with one generation after another. In a word, they have become standards of excellence known as *classics*.

Today, everyone is blithely mixing Early American with many other periods, and it is more popular than ever. Now, for the first time, you can obtain beautifully-crafted Early American tables made by Carlton-Kirwood especially to go with famous Nichols & Stone chairs.

Carlton-Kirwood... uniquely qualified specialists in the manufacture of Colonial style tables

For years, discriminating people have been buying Nichols & Stone chairs to go with other brands of dining tables. At long last, they can select matching tables — handsome tables that equal in every detail the superb craftsmanship and quality of N & S chairs.

Since 1857, Nichols & Stone has acquired a vast wealth of experience in furniture-making — experience in which Carlton-Kirwood shares. This is what makes Carlton-Kirwood uniquely qualified to start out with. You get tables made of selected Northern hardwoods, in the best designs and most-wanted sizes, each painstakingly finished by hand to match a wide choice of standard Nichols & Stone chairs.

Rugged RESISTOVAR® "Super Finish" — invisible shield protects table tops

All Carlton-Kirwood tables undergo nine distinct finishing processes topped off with a very durable coating — *Resistovar*, a catalyzed synthetic varnish rated a "Super Finish" by the Fine Hardwood Association. It doesn't give the tables a cold, plastic look, however. It actually enhances the natural beauty and warmth of wood, and provides a rich, deep lustre, while making the table highly resistant to damage.

With *Resistovar* protecting the surface, you simply wipe off anything you spill and your table looks as good as new. It shrugs off bumps and scratches, resists staining and discoloration from water, ink, detergents and other household liquids, and even repels alcohol and nail polish! *Resistovar* also offers excellent resistance to heat (such as steam or boiling water), and is flame-retardant.

No. 1401 Round Extension Table
42" dia.; Extends to 62" with two 10"
aproned leaves; Heavy Top;
Spoonfoot legs

No. 1201 Same as 1401 but with

A proud heritage

Nichols & Stone is one of the few companies devoted exclusively to chair manufacture. It creates Colonial reproductions faithful in their adherence to original style, with careful attention to detail.

Since 1857, through five generations of the founders' direct descendents, the traditional beauty of Colonial craftsmanship has been retained. Nichols & Stone is known countrywide for its superlative designs, outstanding quality, and honest value.

Through Carlton-Kirwood, you can obtain unique dining sets with classic Early American styling. And you may choose from a wide variety of matching chair styles, rather than just a few.

Carlton-Kirwood expedites finish matching, overall set coordination, and service. Therefore, you get fast, reliable delivery in sets from one convenient source.
